

Complete 1 Year Money Back Guarantee

Plumber's Choice, LLC., the exclusive distributor of the Flow-Tech Home Anti-Scale System, extends a one year satisfaction guarantee with all Flow-Tech Home Anti-Scale Systems installed on municipal water. Well water applications are only guaranteed if a full spectrum water test is conducted and the distributor recommends Flow-Tech Home as a solution. To qualify, the Flow-Tech Home Anti-Scale System must be properly installed by a trained and licensed service contractor for ninety days to allow for proof of results.

Post ninety days of installation, if for any reason, after all efforts have been made to ensure unit is working properly, the Flow-Tech Home Anti-Scale System fails to provide satisfactory results, alternate conditioning equipment will be provided to the purchasing contractor upon receipt of returned complete system.
