

## Without Flow-Tech

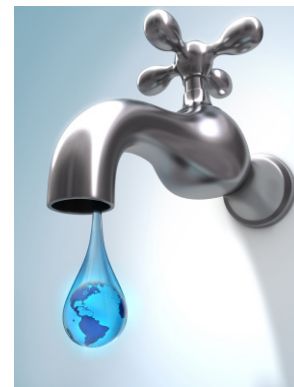

Lime scale clogs pipes and fixtures, increases soap needs, decreases water heater efficiency, clouds dishes and reduces appliances' useful life.

## With Flow-Tech

Flow-Tech stops scale from forming, protects pipes and fixtures, reduces soap needs and makes water using appliances more efficient.

**FLOW-TECH**HOME™  
exclusively distributed by  
**PLUMBER'S CHOICE WATER SYSTEMS**

[www.plumberschoicewater.com](http://www.plumberschoicewater.com)

**WATER  
TREATMENT,  
ENGINEERED  
AT A HIGHER  
LEVEL.**

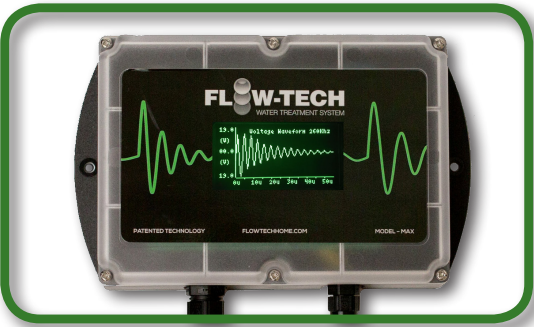

**No Coils, No Magnets, No Media...No Scale.  
Pure science you can test with a metered signal.**

In California, all water treatment devices making health or safety claims must be certified by the California Department of Public Health. Flow-Tech Home, nor Plumber's Choice, LLC, makes no such claims and has not been certified by the California Department of Public Health.

**FLOW-TECH**HOME™  
INLINE WATER SYSTEM

GREEN IN EVERYTHING BUT EXPERIENCE.

The Flow-Tech System was developed from years of research by a team of top petrochemical engineers and scientists to be used in industrial applications. This technology has now been adapted to make it available to homeowners. For the first time you can have an economical, environmentally friendly, salt-free, no-maintenance water treatment system **that works**— all the time.

SALT FREE. CHEMICAL FREE. WORRY FREE.

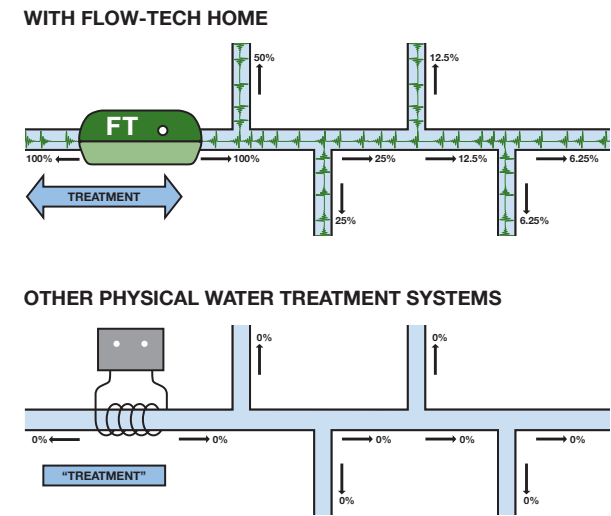

Over 80% of American homes have hard water. Hard water contains dissolved calcium and magnesium. When these minerals enter your home and are subject to pressure decreases and temperature increases (like your hot water heater), the water becomes supersaturated and they fall out of solution and form encrusting lime-scale. Prior to the development of Flow-Tech Home, customers have been forced to use undesirable techniques such as salts, magnetic coils and chemicals to manage these effects.

THE ULTIMATE SALT FREE WATER CONDITIONER.

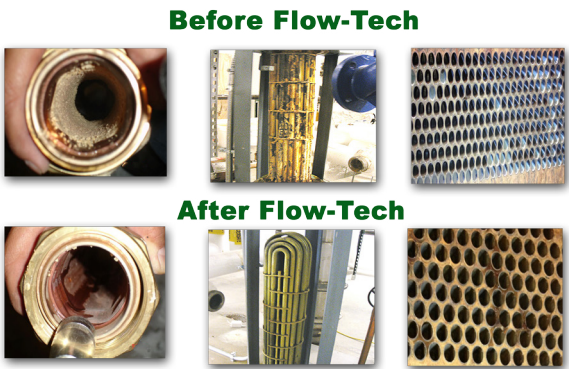

Flow-Tech Home’s cutting edge technology is far more effective than any other physical water treatment system on the market. Not only will the Flow-Tech anti-scale system eliminate lime-scale from occurring in your home it will also remove existing build-up, increasing flow and efficiency.

REVOLUTIONARY BREAKTHROUGH.

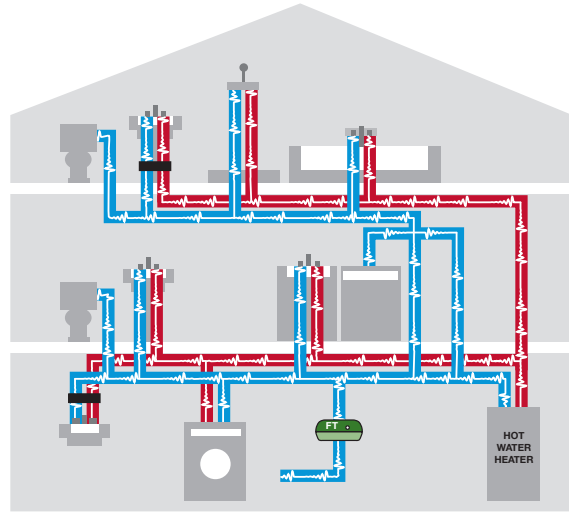

The Flow-Tech system has a unique induction method that treats all of the water in your home 24 hours a day, 7 days a week. The Flow-Tech Home system induces a low frequency signal that is pulsed several thousand times per second and propagated throughout your entire plumbing system. This electromagnetic signal reverses the charge on the minerals that are dissolved in the water.

This new state forces the minerals to form seed crystals that remain in suspension until they are harmlessly washed away with the waste water.

Unlike all other chemical and physical water treatment systems on the market, Flow-Tech has invented a proprietary means of treating all of the water throughout your plumbing system — whether the water is moving or not. Magnets, coils and TAC are inconsistent unless the water is flowing. Any seeds that they create soon go back into solution and the ability to prevent encrusting scale is lost.

Flow-Tech is the only system that maintains measurable signal strength throughout the entire plumbing system, regardless of flow, constantly protecting your home.

BENEFITS WITH FLOW-TECH HOME

- Saves Money
- Does Not Use Salt or Chemicals
- Protects Appliances and Fixtures
- Removes Existing Scale Build-up
- Increases Energy Efficiency
- No Maintenance Required
- Saves Space
- Environmentally Friendly and Healthy
- 3 Year Warranty
- No Drain or Wasted Water

THICKNESS OF LIMESCALE	LOSS OF EFFICIENCY
1/16"	12%
1/8"	26%
1/4"	40%

ANNUAL COST COMPARISON	HOME WITHOUT FLOW-TECH	WITH FLOW-TECH
Water Heater	\$80	\$53
Washing Machine	50	33
Dish Washer	40	27
Fuel Cost (H <sub>2</sub> O heater)	450	320
Softener Maintenance	180	0
Detergent Cost	240	120
<b>Total Annual Cost</b>	<b>\$1040</b>	<b>\$553</b>
<b>Total Annual Savings</b>		<b>\$487</b>

Assumptions: Life of appliances extended 50%, Average Energy savings 29% on domestic water heating, annual softener cost \$240 eliminated and annual detergent cost \$120 with 50% savings.
